Mr. Cyrus Eaton

Sir:

We had planned a picnic to be held today to give all of us an opportunity to talk with you and to express our many thanks for the efforts and expense you are putting forth to better every ones way of life in the world today.

It gives me great pleasure to have presented to you, on behalf of the citizens of the area, this painting of a local scene painted by a local artist, and I might add the frame was made from wood of the oldest house on the Gulf Shore, approximately 125 years old.

We have all been very conscious of the outstanding efforts you have put forth to publicize our fair village and its beautiful countryside and we sincerely wish that this token of our esteem towards you will give you many moments of quiet contemplation in your busy world.

We thought that it would be very fitting for Mr. Charles Teed to make this presentation to you as he is one of the older citizens of Pugwash and has been a fountain of information on its former citizens and happenings.

Committee
July 30-1957.
