Academician A.V. Topchiev

23rd September, 1959.

Dear Miss Royon,

I have been told about the magnificent effort which you have made at the Fifth Pugwash Conference on Biological and Chemical Warfare. Working long hours appears to be a tradition of Pugwash Conferences, but I understand that this time your staff excelled themselves in the speed and quality of their work. The best evidence of this is the magnificent volume of the Proceedings of the Conference which you have prepared so quickly. I know that the credit for this perfect organisation and for maintaining the morale of the staff, under trying conditions, goes to you and I wish to thank you most heartily, on behalf of the Pugwash Committee, for all you have been doing for the success of the Pugwash Movement.

Yours sincerely,

Bertrand Russell ✓
